This establishment is principally occupied in arranging law matters, and employs only lawyers and attorneys of known name. It manages all affairs, civil, criminal and commercial which may be brought before the tribunals; also all claims against the National and Provincial Governments. It takes upon itself all the expenses of any lawsuit which may be entrusted to it either to attack or defend any one: it takes charge of accounts, wills, judicial recoveries, and claims in the camp; it purchases titles and documents of the ancient and Oriental debts, title deeds, disputed legacies, papers, and protested drafts, taking these on a proportionate discount. It takes charge of estates, making itself responsible to the owners for the rents, as unless upon itself all expenses incurred in receiving rents from troublesome tenants, the landlord only paying a small commission on the recovery; it advances sums on mortgage of land, documents, and valuable effects. Lastly, it takes charge of all kinds of commissions, both within the republic and in foreign countries, also necessary giving a proper guarantee.

WEDNESDAY, APRIL 8, 1868.

EDITOR'S TABLE.

Little above has been stirring since Sunday morning. The heat on that day was terrific, being probably the farewell of Summer. On sunday morning the city was awakened by loud peals of thunder, and the rain fell in torrents, continuing, although much abated, most of the day. here is reason to suppose these copious showers have been general through the campaign, and cheered the hopes of the farmers.

Accounts from the camp are varying, but in general gloomy. We are informed that Pilar and Capilla Sosa are not so bad as was stated, but our country news bear out prospects unless the weather continue broken, and the roads be delayed. A fricas of cavalry from beyond Arai has lost all his horses and cattle, strayed away in search of pasture. Loads have been heavy in the far South.

Insecurity for life and property is the sub-title continues, and the exploits of the brigands are everyday more daring. Flores is in a state of alarm, and the Southern suburbs much the same. The milkman who was lassoed and left for dead near Lomas de Zamora, we are happy to say is recovering. Another poor fellow meeting, has been assassinated in the same locality; he was going home, about dusk, when a gaucho stracked him and cut him in so horrible a manner that he only survived a few hours, giving some description of his murderer, who, as usual, has not been broken into, but in most cases only a few hens were stolen.

A fashionable French milliner undertook last week the Quixotic errand of going in search of her countrymen, the famous Boutinet brothers. Unfortunately forgot to discharge another trifling obligations before her departure and this has given rise to unkind observations. In the absence the fraudulent bankrupts, we feel confident she will not return to B. Aires whatever.

The French mails, under Navarro, in the last trip from Rio Janeiro took 101 passengers for Europe. This looks like a lucrative trade for the Messageries Imperiales.

Immediate reforms will be found some important news from Brazil, which we translate from the *Diario do Rio*. The native colleagues never seem to remember their next neighbours. We notice the arrival of the Russian Ambassador, Count de Glinka by last, touch mail, to the Imperial court at Rio.

We have been unable to learn how the London Bondholders Meeting ended up. The fine points, of the late Sir Excelsiou, on the calle Lanza, Barra se, built in the style of a Norman castle, is about to be bought by the panmer, and will probably go, like Mr. Mulberry, to a more hospitable clime.

The Southern railway commence last day the earthworks of the 3rd section between Lomas and San Vicente. The navvies are over 600 in number, mostly Basques or Italians. It will be seen in our advertising column that more hands are required for the Boca line, the present gang not exceeding 40 men.

The opera Co. gave Lucia de Lamermoor on Sunday night; vocal was concerted and unanimously applauded, Lelmi and Walter were in excellent voice. Norma, on Monday evening, brought out the new opera *Ione* by *Petrella*, we will give a report of the performance to-morrow.

The Ne Nobe came in on Sunday with double-loss. the Rio Negro only knows is seriously ill 24 0 per month quoted by Benjamin's Ch. ology for the establishment of a Lunatic Asylum in school at Patacas. Lt. Fernando Arias has been awarded 6,000 for his services as Assessor in the suit between Mr. Xavegnag and the State. Dr Vico has been named successor to Dr. Laroque in the rectorship of the Concepcion college. It is proposed to build a new Hall of Justice in that town.

The *Fair* of Montevideo, 15th and 20th ult. contains two judicious articles in defence of Mr. Harding and the R. Plate Bank: it shows that owing to the non-issue of the advertisements of the Bank, only a small amount was allotted to that Branch, although by the statutes the whole capital (now a million sterling) is responsible for each of the Branches,

A young man, named John Nugent, of Capilla Nueva, has died under very melancholy circumstances. He was complaining of pains in his loins from exposure to the elements, during the late browne of the 7 secs, and being treated for inflammation of the lungs died on Saturday night. On the day previous he went to Morron by train, and on Sunday his remains were conveyed to the Recoleta. He was but 23 years of age, and born on constant exposure.

The first number of the *Narionalista* will appear to-morrow: it is printed in this office, and edited by two well-known literary men. After the manner of Liverpool and N. York papers it will be vended about the city by 60 little Newsboys, who cry "El Nacionalista only a dollar!" Let not our friends suppose there is a sarcasm in the allusion. The mode will soon remind us of the Liverpool bustling stage "Sixpence the Evening, just only one penny."

Passengers from Montevideo say that the last thing thought of, there, is Flores. Many people are talking about the probable new President, and others are well pleased with the war, as it is a source of money circulation in the city.

It is strange that the Liverpool steamer Una has not arrived: she was to leave on the 20th Feb. and might have been expected in Montevideo by Easter sunday (47th ult). We may, however, look for her coming hourly: she belongs to a steamer of 1,500 tons more than the French mail, but is a good deal in such stirring times on the Northern Continent.

The want of a good steam service between the two cities of the R. Plate is much felt. The little Congonas has 112 passengers "accommodated," with some discomfort in her 12 hours' passage: still we understand that McLean's favorite pilot-boat sometimes takes 40 to 60 passengers.

ROADS AND BRIDGES

The following is a copy of the contract entered into between the Government and the English Company:—

"The Minister of the Interior, for the Augustus Rogerio Pereira Lebreton, and Mr. Peter Beare, acting for Mr. Thomas Doorav, contractor, Bellepoint, Rua, in the parish of St. Mary's, Islington, county of Middlesex, England; for Mr. George Wells, Civil Engineer and Contractor, No 12, North-street, Westminster, same country, and for Mr. Joseph Emerson Dawson, No 1 Victoria-street, Westminster, Contractor, on the other part. Mr. Peter Beare acting under the power of attorney to act. Agree—

1st. The contractors bind themselves to execute the roads and bridges work in connexion with the roads and bridges, in conformity with the law passed on the 17th October, 1863, by which Government is to advance the sum of 6 per cent on the sum of one million of silver dollars: and these works must be executed in the places and manner pointed out by Government.

2d. The cost of each of the proposed works must be appraised by competent persons appointed by Government, and by the engineer of the contractors, or by their agents; and should no arrangement be come to, a third engineer will be named by umpirage.

3d. If, during the construction of the works, Government should wish to suspend operations, they should have to indemnify the contractors for all expenses in conformity with Article 5. Should Government wish to make any changes in the plans, or to have additional works these plans and undertakings must be carried out, according to the previous articles.

4th. The terms being once agreed to, between the Government and the contractors, a fixed date will be appointed for the commencement of the work, and should the contractors (except from some unforeseen or unavoidable circumstances) not begin them, they will forfeit to Government 30 per cent of the total cost of the work in construction.

5th. Besides the necessary expenses of the works the contractors shall receive 10 per cent on the supposed cost, in order to save them from unforeseen charges.

6th. On the completion of each work, the contractors will advise the Government thereof, in writing, and it may be examined and received by them, and should, on examination, the agents of Government have to make any claim against the contractors, the question will be decided by arbitration.

7th. Should the contractors, through revolutions or political disturbances, lose materials, engines, tools, or any article most on the works, the Government will make good their losses, at a just valuation.

8th. The payment of the works will be made to the contractors in scrips of "roads and bridges," issued in accordance with the law of the 17th of October, 1863, at par, with 8 per cent yearly interest, and 9 per cent amortization. This interest and amortization will be liquidated in terms with the said law.

9th. Payment, mentioned in the foregoing article, will be made as follows, viz:—

The value of all the machinery, tools, and materials, as soon as placed on the spot of the intended work.

The value of materials, from foreign countries, as soon as landed in Buenos Ayres, or any other port of the Republic.

85 per cent. of the work, according to the vouchers passed by the engineer to the Government each month, and the remaining 15 per cent. until the final settlement.

10th. The contractors are bound to commence work within three months from the time of signing the contract.

Buenos Ayres, March 22, 1864.

D. RAWSON,
Minister.

Approved of in all its parts; pass to the public office of the National Government for that it may be entered in the public archives, and give the parties interested the guarantees they require. Advise the Minister of this, and let it be published.

BAHIA.

With respect to the exploration of the River Paraguassú, Councillor Amaral, at the opening of the Provincial Assembly, stated as follows:—

The engineers Ludislas Wideky and Tristno Rego, who had been appointed to explore the navigation of the River Paraguassú, have handed in their papers. These engineers declare that, having examined into the works necessary for the navigation as said river, they find that the cost of these works would never be repaid. Under circumstances of this nature, as used by the military, to be placed at different parts of the river, and they consulted that the expense would amount to 200:000 milreis.

On the 11th ult. 58 packages of brute diamonds were shipped, per steamer, to Southampton. On the 31st ult. the American steamer Pocahontas, Captain H. Would, entered the bay of Bahia, from Fayal, having called at Santa Cruz, Teneriffe, and Porto Grande.

The public attention has been much engrossed by the attempted murder, by poison, of Mr. and Mrs. Bellegarde, Don Jose Antonio Dos Passos. The parties implicated in this scandalous attempt are another merchant, Marco Pinho, friend of Passos; Bento Mayo's, lithographic, county of Middlesex, England; for Mr. George Wells, Civil Engineer and Contractor, No 12, North-street, Westminster, same country, and for Mr. Joseph Emerson Dawson, No 1 Victoria-street, Westminster, Contractor, on the other part. Mr. Peter Beare acting under the power of attorney to act. Agree—

1st. The contractors bind themselves to execute the roads and bridges work in connexion with the roads and bridges, in conformity with the law passed on the 17th October, 1863, by which Government is to advance the sum of 6 per cent on the sum of one million of silver dollars: and these works must be executed in the places and manner pointed out by Government.

2d. The cost of each of the proposed works must be appraised by competent persons appointed by Government, and by the engineer of the contractors, or by their agents; and should no arrangement be come to, a third engineer will be named by umpirage.

3d. If, during the construction of the works, Government should wish to suspend operations, they should have to indemnify the contractors for all expenses in conformity with Article 5. Should Government wish to make any changes in the plans, or to have additional works these plans and undertakings must be carried out, according to the previous articles.

4th. The terms being once agreed to, between the Government and the contractors, a fixed date will be appointed for the commencement of the work, and should the contractors (except from some unforeseen or unavoidable circumstances) not begin them, they will forfeit to Government 30 per cent of the total cost of the work in construction.

5th. Besides the necessary expenses of the works the contractors shall receive 10 per cent on the supposed cost, in order to save them from unforeseen charges.

6th. On the completion of each work, the contractors will advise the Government thereof, in writing, and it may be examined and received by them, and should, on examination, the agents of Government have to make any claim against the contractors, the question will be decided by arbitration.

7th. Should the contractors, through revolutions or political disturbances, lose materials, engines, tools, or any article most on the works, the Government will make good their losses, at a just valuation.

8th. The payment of the works will be made to the contractors in scrips of "roads and bridges," issued in accordance with the law of the 17th of October, 1863, at par, with 8 per cent yearly interest, and 9 per cent. amortization. This interest and amortization will be liquidated in terms with the said law.

7 prisoners, 30 horses and some saddles. On Thursday night 31st.) the alarm of fire was given, and the people rushed out of Solis theatre for it was found that Sor Carillo's shop, next door, was in flames: the police, however, succeeded in getting it under. Sor Revuelta, alias Montecristo, is causing quite a sensation: it will be remembered this character personated Waldino in Dumas' play of the same name. In his present visit to Montevideo he has paid off for D. Juan Anchorena, the millionaire of the Republic, and easily understood how his crimes assert that he mistook Baron Maua's signature for his own: he has, however, been liberated from custody, the police suspend its judgment, and hence both the accusers and accused are in a state of suspense.

Colonels Lamela and Nadal have been sent in pursuit of Borjes and Medina: the former take a large cavalry force with them, but will probably return after ineffectual skirmishing.

A rare paper called the 'Iris' is to appear shortly, edited by D. Augustin Vedia. Most of the diligences to the interior have stopped running, for want of horses, owing to the drought. The 'Reforma' advises the speedy introduction of traction-engines. Colonel Langton has resigned his office of Chief of the Staff. Snr. Marmol left Montevideo for Rio Janeiro, by the Mersey: the Brazilian Consul-general for Uruguay, Snr. Franco bore him company. The 'Reforma' states that Captain Boure is gone to Europe for a steamer: he is doubtful, for he had taken his passage only to Rio Janeiro.

Dr. Herrera, Minister of Foreign Affairs, wrote to the Brazilian Charge d'Affaires requesting the immediate liberation of Silbuxtera, on the imperial frontier; the letter replied that he had made enquiries and found the rumour incorrect. Dr. Herrera repeats his assertion.

A Frenchman, named Guillaume Irigoyen, a resident of Montevideo; says he had attempted his life, narrowly recovering from two deadly stabs: this time he has been more resolute.

Dr. Manuel Herrera is named member of the Board of Public Instruction.

LATEST FROM BRAZIL.

Almost as bad as Buenos Ayres

The village of Paranhyba de Sul (Brazil) is infested by a gang of cutthroats and robbers, who stopped all passengers. These outlaws are unarmed, and go in parties of three or four. One Italian has been murdered, and another man was stopped, but as he only possessed four milreis, he was let go, on condition that when he passed again he should have more money. Their favourite spot for 'sticking up' passengers, is a very narrow part of the road, where there is no escape. Such is the state of alarm, caused by this state of affairs, that passengers make a detour of three leagues, so as to avoid the danger. The police are aware that the robbers are white men.

Near the village of Telha, Antonio Banito found his wife talking with Capt. Bento Dos Passos, whereupon he first stabbed and killed her; he also attempted to kill the gallant captain, who, however, escaped, slightly wounded. He caught a horse and gave chase, was captured by the authorities, but not before he was wounded with a pistol shot.

The body of a man, called Jose Francisco, was found in a well, stabbed in 6 places. His wife, along with two men, Jose Francisco Pinto and Antonio, is charged with the murder. In Jatoba, in the district of Pacatuba, Francisco Baptista, with seven companions, was lying in wait upon the Company of 'Union Mercantil,' to the value of 619,580 milreis—Diario do Rio de Janeiro.

ACADEMICAL EXHIBITION.

On Sunday the 2nd inst. the most interesting ceremony of the distribution of prizes took place in the municipal and parochial school of San Telmo and Concepcion. Early in the morning the people were seen wending their way to the ceremony, summoned to the happy scene by a fine musical band, kindly sent there by the municipal body, and little angels dressed scholastically and gallant boys bearing aloft the colors of their country were seen hurrying along side of their fond mamas to the establishment of Mistille (the beautiful and learned directress of the school). Before we enter upon a description of the ceremony, we can't bestow too much praise upon the celebrated Quilmes municipal masters, whose alacrity and activity in welcoming strangers were worthy of all praise. The band had now ceased playing, a deadly silence reigned, which was only once interrupted by the fall of the repeater from on chair, which duty had summoned him to mount for the better inspection of the array of beauty which stood before him. Silence restored, Senores —— (unhappily we know not her name) stood up, and with the boys on her right and the girls on the left, and after casting a severe glance on the audience, spoke. It is impossible however to follow the respectable lady through the whole of her discourse, after reverting to the happy event that brought them there, she finished saying, "I see in your countenances it is just, nay allowable my children's contentment more and you will receive the rewards of your perseverance and industry—and you, madam (turning to the learned directress) the satisfaction of having sternly, though religiously and conscientiously performed all the arduous duties to which your career subjects you. The lady sat down amidst great applause, the band struck up the National Anthem, and the distribution of prizes succeeded, which was occasionally interrupted by appropriate speeches given by young boys and lively airs from the musical band. Altogether the ceremony went off capitally, everybody seemed pleased except the defeated competitors, who however vowed they would next year wear one of those beautiful medals on their breast.

SPECTATOR.

LOCAL EVENTS.

Deserters. — The 'National' announces the arrival, at San Fernando on Saturday, of eight run-aways from the Oriental army: they came over in a whale-boat.

Mr. Wells. As we before stated, the aeronaut will make his first ascent from San Fernando, next Sunday.

Pagodonda. — The 'Nacion' states that the 150 Chinese have been sent to Jerome: to military service: this is the sum of the country. Better than in prison.

Peru. — The 'Estrella de Amazonas,' published in Manaos announces the arrival in Lima of Sr. Wernhausen, the Brazilian Minister to Peru. The same newspaper states there exists a deal of bad feeling between the Spanish Consul and the Peruvian authorities of Loreto.

Cotton—The Paraibyhano states that Georgia cotton seed has been distributed to 24 Parishes in Para in March last.

Indians—A body of some 500 Indians under the command of the Cacique Victorino, from the village of Palmas in the province of Santa Catharina have made a descent upon the province of Rio Grande. They passed by the Campo do Meio, Gerra dos Antas, and close to the military settlement of Soledade.

Exports. — Except Martin Garcia produce, nothing seems to be shipped from this country. Days elapse without any vessels clearing out with cargo for foreign ports, and should the state of affairs continue any longer, the navigation of the river will be almost suspended for want of cargo to carry.

On the 2nd inst., only one vessel, the 'Maria,' cleared out with 867 pipes tallow, 971 tons bones, 4,000 skin bones.

A question, like that propounded by the Brighton dancing master to Mr. Toots, now arises, "What is done with the raw products?" but, unlike instance, Mr. Toots' answer of boil it is of no use

The Hippo gastronomers.—The society, which was organised in Paris for the purpose of introducing horse flesh as an article of human food, was dissolved owing to the prejudice of French menagers to the diet of horse flesh. It is now that an offshoot of that society has taken root in Buenos Ayres if we may judge from an advertisement we see in the morning newspapers.

$200 reward will be paid to any one who will return a toasted horse (toasted) which was taken away from the sale.

That intelligent philosopher and observer of mankind, Samuel Weller, Esquire, states that there are three sorts of mutton, kidney, or other meat pies, the "seasoning" was everything. Here it appears another sort of pie—barbecue of the animal and roast it whole.

Pequenin.—One of our native colleagues states that on the 9th ult., several people who had been confined since the 4th December, were released from the prison by Leandro Gomez and murdered, without any trial. One man was lanced to death, another hanged, another shot, and the last had his throat cut The time chosen for these so-called executions was between 10 p. m. and midnight. Other individuals, 20 or 30 in number, are supposed to be wrapped in blanket. This story is, we are assured, a fabrication. Would it be superfluous for our colleague to give his authority?

Mr. Michael King—The heirs and creditors of this gentleman, who was murdered in the Villa Lezana, and whose murderer, as stated, has not been taken, nor (we believe) looked after, are required to enter their claims before the 30th inst.; the judicial authorities, however, do not think this known, for which reason they publish this notice in a paper never seen by Irishmen.

National College—No one has yet been named to succeed Dr. Aguero; three candidates are in the field, Canon Fibero, Dr. Larroque, of Concepcion, and Sr. Jacques, late professor of studies.

CURTIS, PERKINS, wrestling pain attending an arm fracture from the timely use of a dose of medicine. Proof that the medicine thus taken is injurious. It is not the quantity of horse applied that lessens a pain. Both acid purgative medicines cause of stone and other deadly affections are injurious, increasing a purgative, and the strongest drugs is lessened only from the irritation they produce in the liver or other organs. Dr. Holloway's Pills are free of any such injurious tendency. They relieve, it can be, liver and other secretions, hence in their speed it is absolute to everything pain, whether the immediate cause of that pain be neuralgia, rheumatism, gout, or any other disease. Dr. Holloway's Pills will be found especially efficacious in all cases of debility, whether arising from the effects of climate, intemperance, or any other cause. They are peculiarly adapted to the constitutions of females at all ages, and are invaluable in all complaints incidental to that sex. Sold by all medicine vendors throughout the world.

Gabriel on the Loss and Restoration of the Teeth—The above is issued by Messrs. Gabriel, the eminent London dentists, and as it is written by men who have a high standing in their profession, the work is well worthy the perusal of all who value the preservation of their teeth, and wish to guard against the many and tormenting evils to which these useful members are subjects. Many valuable hints are given throughout the book as to the various means of preserving the teeth and gums in a healthy condition, and of arresting in many cases permanently the progress of decay which may have already set in. The little work is evidently written by men of long experience in their profession, and who are thoroughly masters of their subject, and as such may be honestly recommended. Extract from the "Monas Herald," January 20, 1864:—"As may be seen by our advertising columns, Messrs. Gabriel supply teeth on their celebrated system, irrespective of distance or climate."

Cuthing's Sparkling Effervescent Citrate of Magnesia,

An agreeable cooling Saline Draught, Antacid and mild Aperient, preferable to any other Saline as a Febrifuge.

When the body is in a heated or feverish condition this preparation will be found most grateful, as it tends to produce a healthy moisture on the skin and generally cool the system.

Directions.

Place in a dry tumbler a measureful of the powder, add two thirds cold spring water, stir briskly, and drink during effervescence. As an Aperient, the draught should be repeated within half an hour, and the effect is more certain if taken before breakfast.

SAVINGS BANK

BANK MAUÁ & C°

No. 103 calle de Cangallo. —

BUENOS-AYRES.

The immense advantages of *Accounts Current* are now so generally felt, and "speculated in the to so great extents as to the River Plate—that the Bank of Mauá & Buenos Ayres—that there are very few Merchants who fail to keep one at the Bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working class in that city, a safe & profitable depository for their savings.

The sums deposited in that most important institution are daily increasing and already reach a very large amount.

These advantages have no hitherto been enjoyed in this city by an immense number of Clerks, Assistants, Working-men & cultivators, all classes & conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a *reserve fund* in case of *need, sickness or old age*, instead of spending them in the immoral gambling, in lotteries and other follies.

The Bank of Mauá and Co. of this city following the example of their firm in Montevideo now offer the same facilities in this city and will open on the 1st October a "Savings Bank" at No. 103 calle Cangallo from 9 a. m. to 3 p. m. on week days, and on Sundays and holidays from 10 a. m. to 12 m. for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a Pass Book in which will be entered the amount deposited and withdrawn.

The depositor is permitted at *any time* to withdraw the *whole or part of* the sum deposited, in the former case the interest will be calculated up to date.

The Bank of Mauá and Co. is sufficiently known to the public by the benefit derived from the course of its operations which are regulated on the strictest and soundest principles and at all days directed to promote the general welfare.

The Bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood.

Buenos Ayres September 19th 1863.

ENGLISH GRAMMAR SCHOOL,

CALLE LARGA DE BARRACAS

Nos.—Mr. Pongerard, of the London University, Graduate.

This Establishment, which from its foundation has been patronised by the principal British families of Buenos Ayres, is the exact reproduction of an English School, where a sound commercial education combined with the acquirement of the French and Spanish languages is imparted to the pupils, and based upon the same system as the first class European institutions of the kind.

An over-watchful and constant superintendence of a strict moral order and propriety, are a sufficient guarantee that the morals and behaviour of the pupils will be carefully attended to.

The different branches taught in the English Grammar School comprise the following: Spanish and English languages, History, Geography, Arithmetic, and Book-keeping in all its parts, Writing, and Belles Lettres Lectures.

Extra branches, such as Latin, Mathematics, Gymnast, Music and Drawing, are also taught by special masters.

The situation of the English Grammar School, in one of the most delightful localities of the Calle Larga of Barracas, at the very gates of the city, is one of the most healthful and picturesque of the environs of Buenos Ayres.
